

ENVIRONMENTAL POLICY

“Lion security” LLC demonstrates commitment by implementing a management system to be aligned with the international standard ISO 14001:2015, and to continually improve our environmental performance in order to minimize and prevent pollution.

We have identified the Local Environmental rules and regulations and will ensure compliance at all times.

We manage our activities and any detrimental effects that might have on the environment.

We encourage all employees to participate actively in the protection of the environment for future generations.

We seek to identify and assess any impact of pollution arising from our activities, set objectives and targets to prevent and control environmental contamination.

As part of this strategy, waste will be reduced to the lowest possible level and disposal will be considered and controlled.

We ensure that products and/or services supplied or provided by third parties can be used, handled, stored, maintained and disposed of, in a manner which safeguards the environment.

We ensure that our policy is communicated to all persons and is available to public and social community.
